Personal Profile

Architect and Creative Visualizer with a strong background in sustainable design, community development, and visual storytelling. Skilled in concept creation, spatial planning, and 3D visualization using advanced design tools. Passionate about using creativity to promote social impact and empowerment, with experience in collaborative projects that improve living conditions and foster inclusion.

Education

Feb 2018 - Feb 2023

Bachelor of Architecture (B.Arch.)

Military Institute of Science and Technology

Core courses: Green & Sustainable Architecture, Advanced Construction & Building Tech, Project Management

Experience

Sept 2024 - Present

Creative Visualizer

Design Point View, Copenhagen

- Designed spatial and product concepts for pop-ups, showrooms, and retail installations, combining aesthetic appeal with practical, sustainable solutions.
- Created visual content and campaigns using Photoshop and video editing to communicate design intent and strengthen brand identity.
- Collaborated across creative and marketing teams to build engaging, human-centered design.

April 2023 - Aug 2024

Architect & Creative Visualizer

Business Analytica, Dhaka

- Managed major projects and worked on site while working on a resort and sports complex project.
- Developed 3D models, created realistic renders, and designed furniture. Helped choosing the right colours, materials, and finishes to go along with the design concepts for all the interior projects.
- Worked as an acting project manager for an Eco resort project and managed the design process from concept building to onsite works.

Feb 2024 - Aug 2024

Teachers Assistant

Military Institute of Science & Technology, Dhaka

- Researched on emerging architectural trends and technologies for project development.
- Participated in community outreach initiatives in Korail Slum, contributing to projects that supported underprivileged families and empowered women through design-led solutions and social engagement.

Feb 2022 - Aug 2022

Intern Architect

VolumeZero, Dhaka

- Helped senior architects prepare and update architectural plans using CAD software. Performed site visits and inspections to determine compliance with building codes and design specifications.

Design Softwares

- | | | | |
|------------------------|-----------------------|---------------------|-----------------------|
| • MS Office (Advanced) | • InDesign (Advanced) | • Rhino (Expert) | • Lumion (Expert) |
| • Photoshop (Expert) | • Firefly (Advanced) | • SketchUp (Expert) | • Twinmotion (Expert) |
| • Illustrator (Expert) | • AutoCAD (Expert) | • Revit (Expert) | • Vray (Expert) |

Language skills

- | | | |
|--------------------|--------------------|--|
| • English (fluent) | • Bengali (native) | • Danish (Beginner – Danskuddannelse Module 3.4) |
|--------------------|--------------------|--|

Achievements

Ongoing	Working Paper, “Designing for the future: The Role of AI in Architectural Innovation
Jun 2025 – Present	Key Person, 3ZERO Club Denmark
2019	Student Volunteer, Institute of Architects Bangladesh for the “Unity Complex” program
2019	Health Volunteer, “Paradox of Korail Slum” movement in 2019 for residents of the Korail
Feb 2019	Workshop, Lecture and Conversation - A color trilogy in landscape at IAB Centre
Jun 2018	Workshop, Seminar on ARCASIA Award Japan 2018 at IAB Centre, Agargaon

Certifications

Mar 2025	Artificial Intelligence in Architecture , European School of architecture
Jun 2025	Adobe Illustrator Advanced training , Udemy

Personal interests

I enjoy cycling, exploring graphic design and crafting, traveling to experience new cultures and architecture. I’m passionate about art, handmade crafts, and continuously expanding my knowledge, particularly in AI and its creative applications.
